Summary

Current store manager looking for a career change. 2.5+ years learning and developing web-based projects. Including knowing the modern HTML/CSS/JavaScript, I have experience building with: React, Node/Express, jQuery, SQL, MongoDB, Git, and many other technologies. Interested in devising a better problem-solving method for challenging tasks, and learning new technologies and tools if the need arises.

Projects

Newflix

FRONT-END DEVELOPER

- Front-end only Netflix clone built using React.js, that dynamically pulls data from The Movie Database API.

Get Healthy with Greg

FRONT-END DEVELOPER

- A fitness website built using custom CSS styling and JavaScript. Some effects added with jQuery and completely responsive with the use of Bootstrap.

IMDb Watchlist Random Title Generator

FRONT-END DEVELOPER

- Chrome extension used on the IMDb website.
- Modifies the user's DOM, displaying a randomly generated title from the user's watchlist.

Portfolio Site

FRONT-END DEVELOPER

- My personal portfolio site built with React.js.
- Shows a collection of my projects, and tells a little bit about myself.

Southern Pet Market Site

FRONT-END DEVELOPER

- Front-end website for Southern Pet Market, built with SASS, Bootstrap, and jQuery.

Education

Anderson University

PSYCHOLOGY

Anderson, SC

Jan. 2014 — April 2017

- Member of Enactus, an international non-profit organization which works with leaders in business and higher education to make a difference in the community and university.
- Two classes away from earning Bachelors in Psychology, but due to current circumstances have had to postpone enrollment to a further date.

Tri-County Technical College

UNDECLARED

Easley, SC

Jan. 2013 — Dec. 2013

- Attended TCTC for a year before transferring to Anderson University

Work Experience

Southern Pet Market

STORE MANAGER

Powdersville, SC

May. 2016 - PRESENT

- Supervised day-to-day sales at a locally owned pet supply shop.
- Worked with store owner to maintain store inventory and determine pricing changes, in order to maximize sales.
- Trained part-time employees.
- Maintained communication with a small group of employees, to manage their schedules and assist with their and customer needs.
